

Baptiste LUBRANO LAVADERA

Robotics Engineer

I'm a computer science engineer focused on open-source robotics and physical AI.

Experience

Freelance Robotics Engineer — Robot Learning Laboratory Rennes

Since Aug. 2024

Building open source robotics project and developing physical AI PoC for small business.
rl2.fr

Work-Study Research Engineer in Robotics — Laboratoire CESI LINEACT Saint-Étienne-du-Rouvray

From Sept. 2022 to Sept. 2023

Completed my final engineering year under a professional work-study contract within CESI's research laboratory, working on a robotics project for the nuclear industry (Orano) and a computer vision research project (OpenCV + ArUco).
I also enjoyed helping other projects or students in the fablab with my prototyping skills.

Cybersecurity Analyst Intern — Ivalua Massy, France

From Oct. 2021 to Feb. 2022

Second-year engineering internship within Ivalua's InfoSec department. This internship introduced me to information security management within an internationally active company and allowed me to develop my technical penetration testing skills.

Network Systems Administrator Intern — CCI Normandie Rouen

From Feb. 2021 to May 2021

First-year engineering school internship within the IT department of the Normandy Chamber of Commerce and Industry. I carried out the migration of all user mailboxes on the normandie.cci.fr domain to new servers.

Network Systems Technician Intern — XELYA

From Mar. 2020 to July 2020

Second-year preparatory cycle internship within XELYA's infrastructure department. This gave me insight into the network systems technician role (IT support) and an understanding of the information systems of several client companies.

Volunteer — Glitch Lab Rouen, France

From Sept. 2016 to Sept. 2023

Active member of an association of hackers and makers organizing educational events around open source, electronics, 3D printing, computing, and cybersecurity. I ran workshops and managed equipment sales at the following events:

- Le Hack 2019
- Nuit du Hack 2018
- Maker Faire Rouen 2017

Education

Engineering Degree, Computer Science — CESI Engineering School Rouen, France

From Sept. 2018 to Sept. 2023

2 years of integrated preparatory classes + 3 years of engineering studies.
Specializations: robotics & cybersecurity.
Association: Vice-President of the robotics club.

MOOC — ANSSI (French National Cybersecurity Agency)

Mar. 2020

Completed ANSSI's cybersecurity MOOC as part of my internship at XELYA.

Scientific Baccalaureate, with honors — Lycée Pierre Corneille Rouen, France

From Sept. 2015 to July 2018

☎ +33 6 89 31 50 73

Skills

Rapid Prototyping:

CNC, laser cutting, 3D printing, CAD
(Fusion 360, FreeCAD)

Electronics:

Arduino, ESP32, Raspberry Pi, PCB design

Programming:

Python / C / C++

Machine Learning :

From hand-coded NN to Sklearn / CUDA / PyTorch / LeRobot

Web :

HTML / CSS / JS / PHP

Networking:

CISCO : CCNA 2

Languages

French

Native

English

B2
920 TOEIC

Spanish

B1

Strengths

Creative • Curious • Self-directed • Passionate

Interests

Open-source robotics

3D modeling and printing

Machine learning / AI
